Subject: Comment on EPIC Statement of Objectives.
Date: Tuesday, March 25, 2014 10:34:40 AM

Lorraine,

Please consider adding another objective to Paragraph 3.3 in Table 4:
Ratepayer Benefits Summary for Strategic Objective 3, as follows:

" Generating electricity using innovative technology, from water
falling over very low dams on irrigation canals and at discharge
spillways from major hydroelectric projects, that are cost competitive
and close to end-users."
